

**Faculty of Sciences of Tetouan Hosts the 2<sup>nd</sup> Edition of the International Conference  
"Franco-Moroccan Mathematics Days (F2MDays'25)"**

The Faculty of Sciences at Abdelmalek Essaadi University in Tetouan emcees the second edition of the international conference "Franco-Moroccan Mathematics Days (F2MDays'25)" on Tuesday, May 13, 2025, under the theme "Mathematics for Everyone and Everywhere."

The opening ceremony, chaired by **Prof. Mostafa Stitou**, Dean of the Faculty of Sciences of Tetouan, who warmly welcomed attendees and highlighted the scientific importance of the event and the efforts of the organizing committee. Prof. Stitou emphasized the high academic quality of the conference and its impact on advancing mathematical research and its applications. Among the distinguished participants were: **Prof. Arij Bouzelmate**, Conference Chair from Faculty of Sciences of Tetouan, **Prof. Benoît Rittaud**, Conference Chair from Sorbonne Paris Nord University, France, **Prof. Bruno Manil**, Director of Galilee Institut, France, **Prof. Omar El Yousseoufi Attou**, Representative of CNRST, Morocco, **Prof. Olivier Lafitte**, Representative of CNRS – Mathematics, France, and **Prof. Eric Boistard**, Director of the French Institute of Tetouan.

The second edition followed the resounding success of the 2023 conference, born from collaboration between mathematical research teams at the Faculty of Sciences of Tetouan and their French counterparts. From May 13–16, 2025, more than 140 researchers and academics from Moroccan and international institutions participated in:

- 12 Plenary Lectures led by experts in applied mathematics.
- Training Workshops on mathematical outreach, co-organized with the French Institute of Tetouan on May 13, targeting doctoral students and 40 high school students in the mathematics studies option.
- Parallel Sessions featuring over 100 oral presentations by researchers and Ph.D. students, along with two virtual sessions to include international participants.

This conference provided a leading platform for the exchange of ideas and expertise, encompassing a wide range of topics, including Functional Analysis, Nonlinear Analysis, Numerical Analysis, Statistics, Operational Research, Pedagogical Innovation, as well as emerging fields such as Mathematical Modeling and Artificial Intelligence.

Building on its previous successful edition, F2MDays'25 strengthened Franco-Moroccan academic partnerships, fostering collaborative research projects and reinforcing Morocco's role as a scientific leader. Organizers aim to establish F2MDays as a biennial event, merging academic excellence with contemporary relevance to promote a vision of inclusive and borderless mathematics.

The conference concluded on May 16, 2025, with a cultural day dedicated to explore the rich heritage of the Tetouan region, including visits to Akchour and Chefchaouen, enhancing intercultural dialogue and connections among participants.

The Organizing Committee wishes to express its sincere gratitude to all partners and sponsors for their valuable support and commitment:
